Hello friend, this is Nana and Shami.

They live with their father and mother.

Nana and Shami are pupils at Magara Primary School.

One morning during the COVID-19 pandemic, Nana and Shami woke up to go to school.

They put on their uniforms and bags.

As they walked out of the house, their mother told them to come back.

“Where are you going in your uniforms?”
their mother asked.

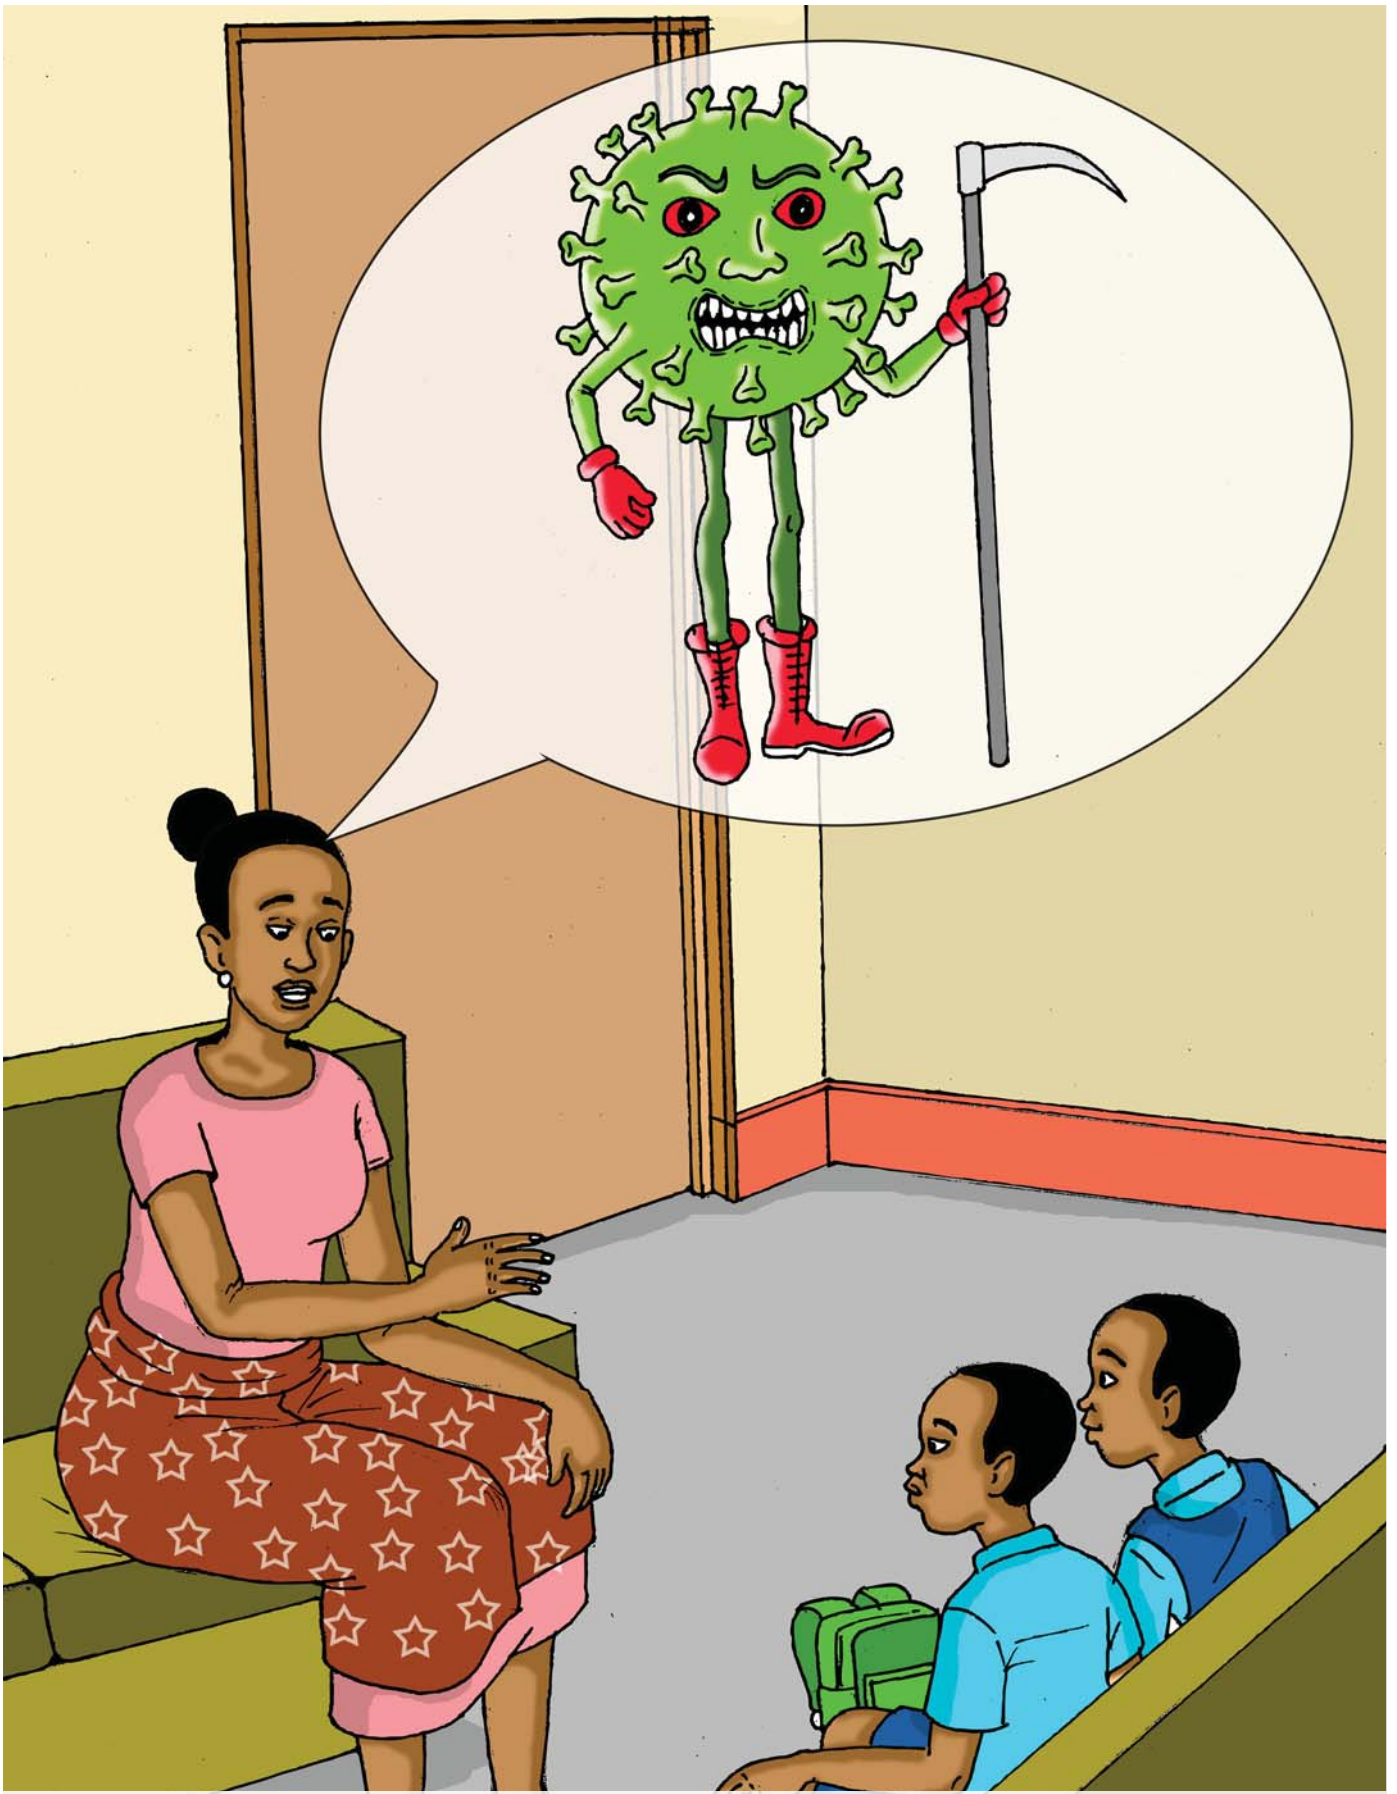

“We are going to school!”
Shami answered.

“No my dears, it’s a total lockdown and schools are closed due to the COVID-19 outbreak.”

“But Mother, what is COVID-19?”
Nana asked.

It is a bad disease caused by a virus that kills people.

It is spread from one sick person to another, like flu!

“Eh! Mother, is COVID-19 going to kill us too?!” Shami asked.

No! We shall not die if we protect ourselves from catching COVID-19.

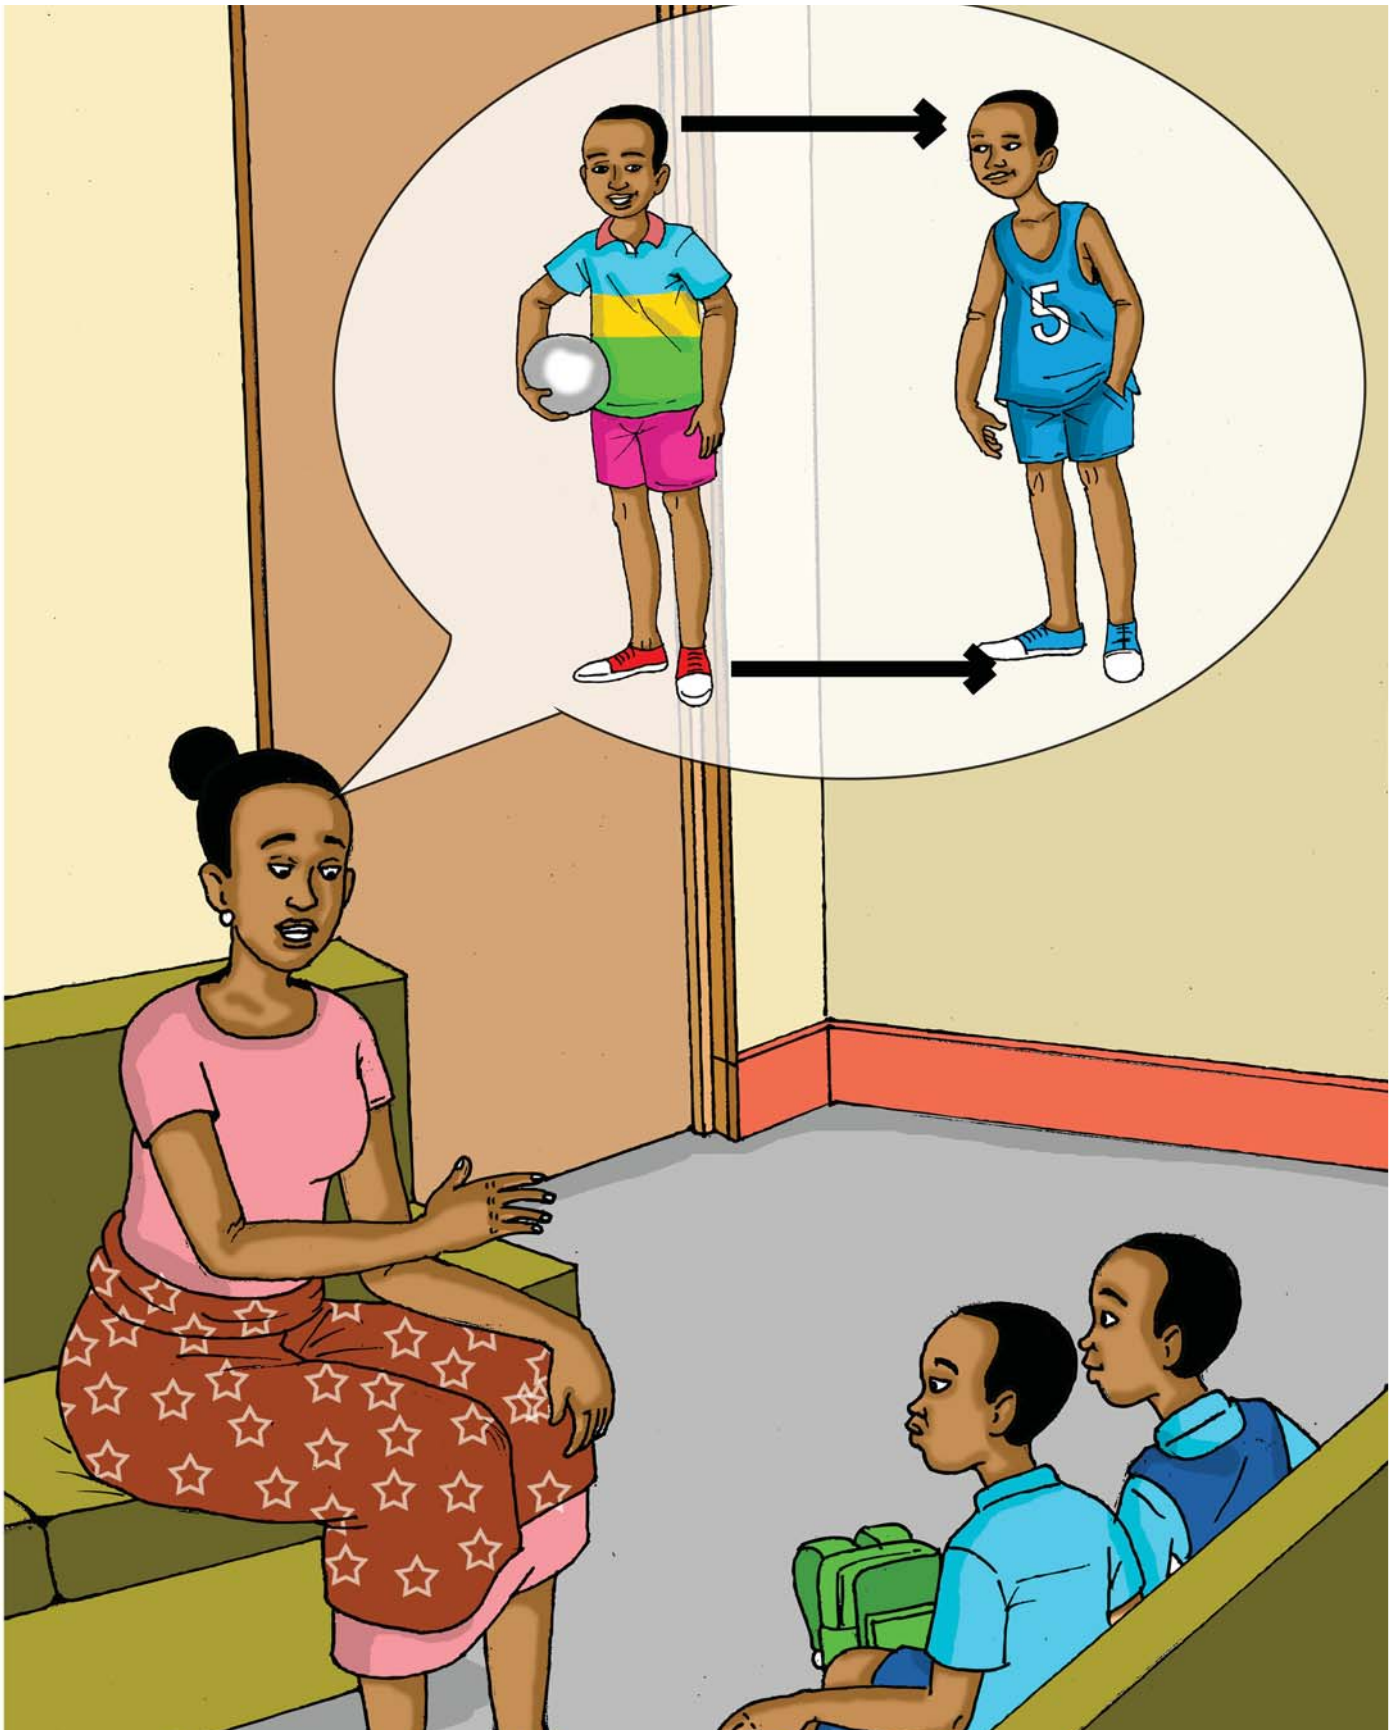

Mother, tell us how to avoid COVID-19.

We can protect ourselves by avoiding places with many people.

Wash our hands with clean water and soap for 30 seconds. You can count from 1 to 30 as you wash your hands .

Keep distance between yourselves, even when you are playing.

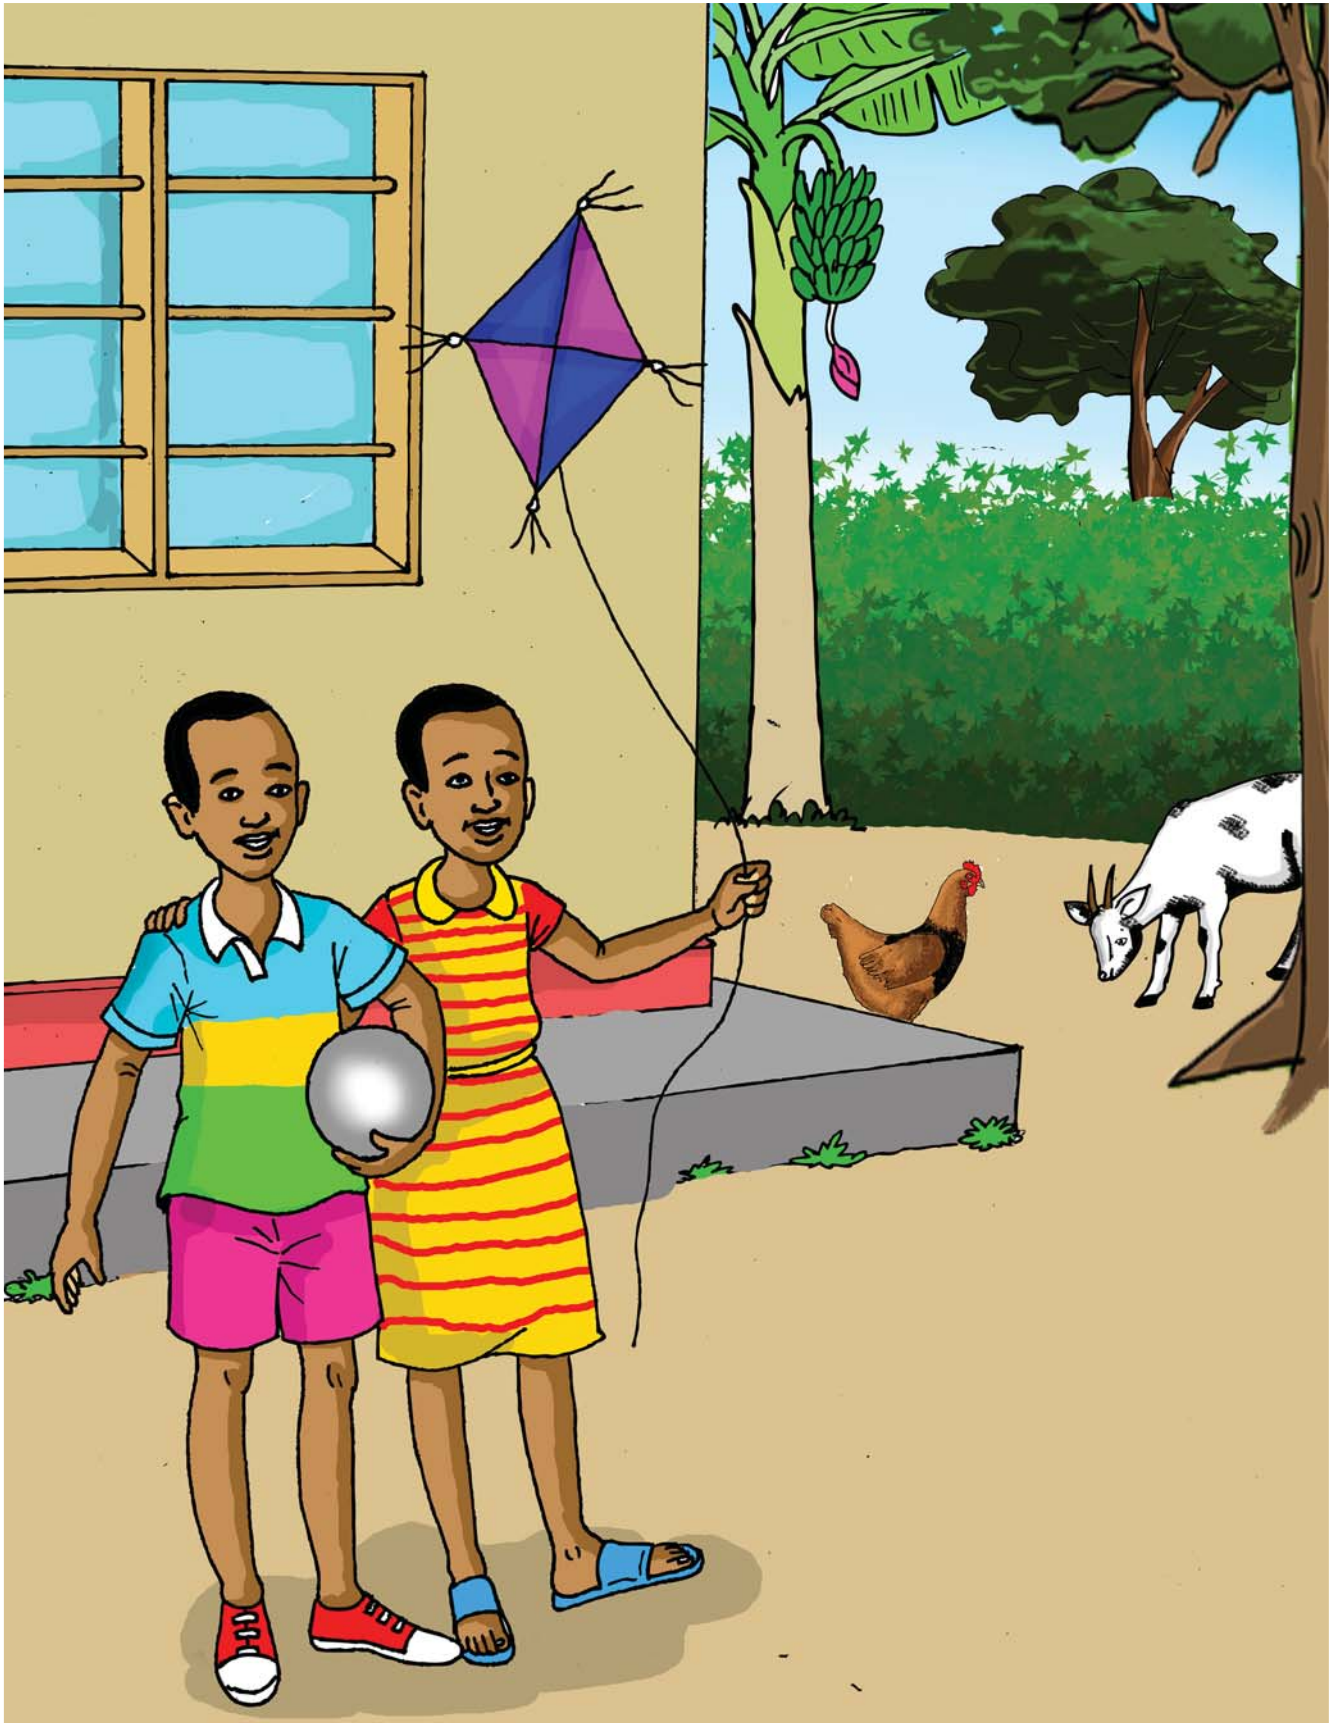

Put on a face mask if you are going to meet with other people.

Avoid touching your eyes, nose and mouth.

Report to a parent if you have any cough or flu.

Stay, learn and play at home.
